

Bike Analysis

- Welcome to our Bike Analysis Dashboard. Here, you'll find a comprehensive overview of various bike features from our dataset, including brand, price, mileage, engine capacity, and more.
- Our dashboard goes in-depth on important topics like "Mileage and Price" and "Brand Analysis." Here, we've made in-depth comparisons and discovered some fascinating facts that might help us better understand the bike market and its patterns.
- Additionally, our interactive slicer page is made to filter and evaluate motorcycles according to a number of criteria. This makes it possible to examine our data at a finer level and reveals how various bike characteristics relate to one another.
